SUMMARY

I am a skilled Data Scientist, Statistician, and Political Economist with expertise in surveys, prediction modelling, and causal inference. I have a PhD in Political Economy and eight years' experience as a Researcher in Economics and Medical Informatics.

EMPLOYMENT

2022 - 2024: Research Fellow, Medical Informatics: University of Edinburgh

Applied advanced data science techniques to design, conduct, and publish analyses of large, complex healthcare datasets. Collaborated with and clearly communicated complex analyses to clinicians, patients, and policy-makers.

2021 - 2022: Senior Intelligence Analyst, Public Health: NHS Lothian

Led the development of the Lothian Public Health Survey. Gathered, analysed, and interpreted data and communicated findings to support Public Health planning, policy design, and service delivery.

2017 - 2018: Senior Research Consultant: BBC Media Action

Managed evaluations of BBC Media Action's international development interventions. Funders included: UNICEF, FCO, DFID, Global Affairs Canada.

2013 - 2016: Researcher: New Economics Foundation (Think tank)

Carried out survey design and analysis and lobbied for policy to promote a transition to a socially just and environmentally sustainable society. Initiated a new research programme on "The Future of Work." Funders included: European Commission, Co-op, Kingfisher Group, Nuffield Health.

2011 - 2013: Analyst: Delta Energy and Environment (Consultancy)

Conducted research and modelling to forecast the impact of policy and technological developments on markets for renewable energy technologies. Clients included: DECC, E.On, British Gas, Bosch.
